

Acrylic Capped/ABS

Acrylic Capped/ABS is a coextruded sheet comprised of an impact-modified, high-gloss or low-gloss acrylic cap over a medium-impact ABS core. This product is designed to offer a sheet that provides the durability and outdoor weather resistance of acrylic, with the ease of processing and bonding of ABS.

Applications:

- ✓ Interior & exterior panels
- ✓ Dashes
- ✓ Consoles
- ✓ Covers
- ✓ Shrouds
